

With a six-tray splice system and a total fiber capacity of up to 1152 fibers, it delivers scalable, on-site splicing and termination capabilities for long-haul, mid-span, and distribution applications.

Specifications Type: Splice Closure Capacity - Fiber: 1152 Capacity - Trays: 12, 8 Size HxWxD Imperial: 27.00 x 11.25 x 7.50 in

FOSC splice trays hinged for access to any splice without disturbing other trays Closure can be used in aerial, pedestal and underground (up to 5 meters) environments

Owner's Manual Fiber Splice Dome Closure, Model: Up to 1152F Ribbon Fiber with N600D-1152-6 6x 192F Splice Trays

This dome closure ensures optimal performance and durability for fiber optic joint connections, offering robust sealing and flexibility for various installation environments such as ...

Designed for 1152-core fiber termination, splicing, and distribution, equipped with 12-core fusion-splicing-distribution integrated trays, maximizing fiber capacity in a compact structure.

Fiber splice dome enclosure includes 6 trays and accommodates up to 1,152 fiber cables for outdoor use. Rated IP68 for protection from dust and water up to 1.5 m.

Provides Durable, Customizable Protection for Outdoor Fiber Cable Runs. This fiber splicing dome enclosure comes with six splice trays that accommodate up to 192 unterminated cables to give you ...

Learn how to install and use the N600D-1152-6 Fiber Splice Dome Closure with these detailed product instructions. Discover the maximum capacity, number of splice trays, and step-by ...

This innovative mass-fusion splice wall cabinet is designed for applications in a building entrance facility providing an enclosure to splice outside plant (OSP) cables to inside plant (ISP) cables with a ...

By accommodating and protecting 1,152 splicing connections, the N600D-1152-6 provides a high level of scalability in your network design. The enclosure supports up to six cable entry passthroughs to ...
