

50kWh High-Frequency Switching Power Supply Solution for Kenya

InfluxDB Docker Hardened Image Scalable datastore for metrics, events, and real-time analytics 11h

Learn how to use and leverage InfluxDB in use cases such as monitoring metrics, IoT data, and events.

The CHS2-50K All-in-One ESS is built for C& I solar + storage, microgrids, and backup-critical sites across Kenya and East Africa. Ideal for factories, hotels, hospitals, campuses, farms, and ...

Due to limited grid coverage, power outages have disrupted daily life and agricultural irrigation for local residents. By introducing a 50kWh energy storage system, the project provides the village with a ...

MEGATRONS 50kW to 200kW Battery Energy Storage Solution is the ideal fit for light to medium commercial applications. Utilizing Tier 1 LFP battery cells, each commercial BESS is designed for a ...

The Livoltek BHF-G50 50kWh Li-ion Solar Battery is a powerful and scalable high-voltage energy storage solution designed for commercial buildings, factories, ...

NWL first developed the PowerPlus(TM) switch mode power supply (SMPS) to provide an integrated high voltage system for electrostatic precipitator applications. With more than 3,500 units delivered ...

Open source time series database for real-time events, analytics, and monitoring--powered by Apache Arrow, DataFusion, and Parquet. InfluxDB 3 Core is a database built to collect, process, transform, ...

InfluxDB handles continuous, high-resolution data with precision and speed. Ingest at millions of data points per second while keeping storage and compute predictable. Capture data where it's generated ...

InfluxDB 3 is a high-performance time series database and platform built for high-frequency, timestamped data. It supports millions of writes per second, billions of series with no cardinality limits, ...

Vantom Power is a leading provider of advanced energy conversion systems, delivering high-performance power solutions to commercial and industrial clients across Kenya.

A SMPS converts the low-frequency input voltage into a high-frequency voltage, which is applied to the transformer and then rectifies and filters this high-frequency waveform to provide the DC output ...

The following are some highlighted updates with the newest release for InfluxDB 3 Core. Learn more via our full Release Notes.

50kWh High-Frequency Switching Power Supply Solution for Kenya

InfluxDB is a time series database (TSDB) developed by the company InfluxData. It is used for storage and retrieval of time series data in fields such as operations monitoring, application metrics, Internet ...

Ensure uninterrupted power with our inverter systems, complete with changeover switches, battery banks, and surge protection features. Energy-efficient systems that reduce electricity bills by up to ...

Open source and free under MIT and Apache 2 licenses, InfluxDB 3 Core is a single-node time series data engine optimized for real-time data collection, high-speed ingest, and sub-10ms queries on ...
