

Box-type 232 beam splitter

Featuring multiple ports for splitting modem signals, the compact 4-Port Modem Splitter (RS-232 on RJ-45) makes it easy and affordable for four terminals to share a single modem.

A 19" chassis that enables you to rackmount your RS-232 RJ45 Modem Splitter Modules.

Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back surface is wedged and AR coated in order to minimize ghosting and interference effects.

This beam splitters buying guide provides technical background, comparison of major types, selection criteria, and an overview of suppliers.

Shop DigiKey's large in-stock selection of Beamsplitters. View inventory, pricing and order now for same day shipping!

Our beam splitters are made from high grade glass material with laser grade surface flatness & surface quality for tighter tolerance on the splitting ratio.

The 2U rackmount enclosure is designed to hold 16 RS232 RJ45 passive splitters of varying port densities.

These RS232 RJ45 passive Splitters are designed to permit multiple terminals to share a single modem. These passive devices are non-powered and transparent to data formats and speeds.

Black Box 2-Port RS-232/DB-9 Passive Splitter BH # BLTL115A o MFR # TL115A Share Print

Two Port RS232 DB9 serial port splitters allow you to gain reliability by capturing data from one peripheral on redundant PCs. These serial RS-232 splitters can improve a system's economy by ...
