

The state-of-the-art technology, designed for both 1U and 2U openings, controls airflow for optimized cooling effectiveness. HotLok Blanking Panel with Temperature Strip is Upsite's latest green solution ...

The Rack Side Air Distribution Unit is a 2U rack mountable air distribution product for networking equipment or servers with side to side airflow. It pulls in conditioned air from the front of the rack and ...

Cold aisle containment creates an enclosed corridor in front of server cabinets, ensuring that the coldest air goes directly into equipment intakes. By isolating the cold aisle, containment reduces unintended ...

AKCP provides blanking panels that can be used to fill these 1U or 2U gaps you may have in your cabinet. They aid in sealing and containing the rack, preventing the hot/cold air mix that can so ...

An aisle containment system is a simple way to improve cooling efficiency in hot aisle/cold aisle rack configurations. Essentially creating a room within the aisle, the system helps keep hot and cold air ...

Blanking panels provide a quick, easy and cost-effective solution to optimize air circulation within an enclosure while maintaining high aesthetics. Eaton offers blanking panels in a variety of styles ...

Tate's Cold Aisle Containment (CAC) system efficiently captures cold air from the CRAH or CRAC unit via an underfloor plenum, ensuring the I.T equipment is kept at an effective temperature. Designed to ...

Hot aisle and cold aisle containment are foundational concepts in data center design. When implemented correctly, they improve efficiency, reduce energy consumption, extend ...

The blanking panel is constructed from cold-rolled steel in a durable black powder-coat, can fill up to 2U of rack space. Proper size facilitates easier and faster installation.

The blanking panel is constructed from cold-rolled steel in a durable black powder ...

The Dell PowerEdge R570 is a powerful 2U, single-socket rack server designed to deliver high performance while maintaining exceptional energy efficiency. Its advanced design helps drive cost ...
