

Computer room optical splitter malfunction

When you are using a splitter like this, it's most likely dropping EDID that your output is spitting out. You'll probably just get a basic 4:3 resolution. Devices like the VA-1VGA I linked will allow you to ...

I just got 2 toslink splitters from ebay. Both don't seem to work with my optical cables. I don't have any issues with the cables, and I've ensured that only one device is on when plugged into ...

Optical fiber splitter is one of the most important passive devices in the optical fiber link. It is especially suitable for connecting MDF and terminal equipment in passive optical networks (EPON, GPON, ...

Some splitters use optical integrated components, so they can be true splitters and the loss in each direction may differ. So for this simple 1X2 splitter, how do we test it?

I don't know why my HDMI splitter setup suddenly stopped working after a week, but I'd prefer to not have to buy any more cables/equipment to fix it and get both monitors working at the same time again.

Most failures tend to be in the OSP, and are caused by improper installations which can be caused by microbends, splices, connector damage, and improper fiber management. Splitter failures can also ...

Optical splitters are vital components in fiber optic networks, distributing signals from a single input fiber to multiple output fibers. However, like any other network component, optical ...

Optical splitters are widely used in passive optical networks. Splitter loss is an important parameter of fiber optic splitters. How to Test Optical Splitter Loss? This tutorial will introduce optical ...

My system only has one optical input, but it also had an unused coax input, so I bought an optical to coax converter (about \$15) and run the Xbox audio through that with no problems, so if ...

I've even tried two different brands of splitter, but both have the same effect. I've even removed the soundbar cable and just connected the headphones through the splitter, and nothing. ...
