Cable trays and baskets are designed to help support and route cable bundles in an organized manner along ceilings or walls. Shop for cable tray systems now.

As a less-expensive alternative to conduit, and a stronger alternative than wire basket, and superior to generic tray, the Snap Track cable tray system saves on labor and reduces total installed costs.

Discover plastic cable trays and management solutions for a cleaner workspace. Find options for under desk, wall-mounted, and server rack setups.

Raceway, Cable Tray, Duct, & Trough Raceway, Cable Tray, Duct, & Trough

A cable tray system is used to support insulated electrical cables used for power distribution, control, and communication. Cable trays are used as an alternative to open wiring or electrical conduit ...

These tray systems allow excellent ventilation and prevent sagging while routing. They support up to 280 lbs. per foot (based on a tray support, such as hanging clamps or a hanging bar, every 8 feet).

Refers to the approximate width of a cable tray used for specifying. Selecting a specific width will show cable trays with that width, as well as cable tray accessories compatible with that width.

Discover the 2026 cost breakdown for cable trays compared to conduit and wire mesh. Compare material prices, labor savings, and performance to find your best value.
