

Our cable tray systems securely hold and protect cables and come in many models and sizes, solid bottom and ventilated.

We design custom cable enclosures that protect against fire & blasts. Cost-effective protection with quick installation and NEC & NFPA compliant solutions.

Build fire-rated enclosures around tray runs, transitions, and penetrations to block flame and smoke movement. Integrate coverings with existing fireproofing and firestopping systems for full compliance ...

These trays are treated with a fire-resistant coating that forms an insulating layer during a fire, significantly reducing the risk of fire spread. This makes them a top choice for high-risk ...

Unifrax's FyreWrap<sup>®</sup> Cable Insulation is a thin, flexible, insulation wrap designed to provide a fire-protective enclosure around cable trays and conduit.

The mostly combustible cable sheaths and insulation allow a fire to spread along the cable at rapid speed. Our tested solutions for cable fire protection can delay the spread of fire in order to minimise ...

Choose from our selection of cable trays, including over 850 products in a wide range of styles and sizes. Same and Next Day Delivery.

FireMaster Cable Tray Wrap is under FM Global follow-up inspection service at manufacturing locations in the Americas, Europe, and Asia, which insures that the product received for installation meets the ...

Fire Rated Cable Trays are built to boost flame retardancy while fitting into tight ceiling spaces. Offering a sleek, clean finish for indoor or outdoor use, it provides value with a 78mm depth that ensures ...
