

Detection-type intelligent PDU meter head

A Metered Intelligent PDU provides detailed insights into power consumption at different levels, including inlet-level and outlet-level metering. This level of granularity enables administrators to accurately ...

You can distribute energy with the high-tech POWERGuard intelligent PDU which has a user-friendly interface for monitoring and managing the energy consumption of your data center cabinets.

An Intelligent PDU allows for remote management, monitoring of PDU vitals, and control of outlets and networked clients. Power status can be monitored over the network, using the NetAgent ...

iPower ACU is the 3rd generation of iPower intelligent PDUs designed to aid Data Centre power management. It has an Advanced Control Unit powered by an improved processor that delivers new ...

The meter is hot swappable and field replaceable without needing to power down the PDU or attached mission critical equipment. Moreover, it provides real-time local & remote power monitoring with +/- ...

With metering and monitoring features, together with the capability for users to set custom thresholds, the MPI allows users to optimize their electrical infrastructure without the risk of downtime caused by ...

Enhance data center efficiency with our EL2P PDU offering. Benefit from real-time power monitoring, space-saving design, and rapid fault detection for improved system reliability.

As a key component of the metering cabinet power distribution unit (PDU), after being installed in the PDU body, they can provide active metering functions to achieve energy optimization and circuit ...

The PX Intelligent Rack PDU series provides reliable power distribution for IT equipment cabinets. It offers metering at the inlet, outlet, and PDU circuit breaker level.

Users can configure metered cabinet PDU via Ethernet access or RS485. This series of products can be widely used in data center rooms such as IDC, banks, securities, governments, and enterprises.

Modular, compact intelligent PDU with inlet metering. Ultra-Low Profile Design. Reduce IP addresses by Daisy Chaining up to 64 PDU's.

Detection-type intelligent PDU meter head
