

Double-sheathed flame-retardant optical cable

non-metallic

Two-sided synthetic mica tape is based on two mica tapes covered three layers of E-glass fiber clothes with high temperature silicone, just like "2+3" structure. This mica tape can resist 1100°C, so it can be ...

Corning LSZH(TM) loose tube gel-free cables are flame-retardant, indoor/outdoor, suitable for installation in interbuilding and intrabuilding applications. The loose tube design offers mechanical ruggedness ...

The direct-buried fiber optic cables allow underground laying without usage of additional pipes. The cables stand up with added mechanical protection, moisture resistance, and ...

The structure is made of ceramic fiber high-performance flame-retardant material to wrap the micro-bundle tube vertically, and the flame-retardant inner sheath embedded with two non-metallic ...

The direct-buried fiber optic cables allow underground laying without usage of additional pipes. The cables stand up with added mechanical protection, ...

The cable has a very high compressive strength & the armoring provides protection against rodents and other types of likely mechanical damage. Available in a variety of designs such as non metallic steel ...

The cable jacket protects a fiber optic cable from the elements and other hazards, such as mechanical damage and fire, and depending on the rating, little or no chemicals are released from ...

This FireTuf fire resistant fibre optic range is fully compliant with fire resistant standards and flame retardant standards, guaranteeing the cables circuit integrity and performance in the event of a fire.

This FireTuf fire resistant fibre optic range is fully compliant with fire resistant standards and flame retardant standards, guaranteeing the cables circuit integrity ...

Extra Low Voltage Cables SST, Steel Wires Armoured, Double LSZH Sheathed Fire Resistant Optical Fibre Cable Application Suitable for emergency systems, lashed aerial, duct, and underground ...

Low Smoke Zero Halogen (LSZH) cables are designed to minimize the release of toxic and corrosive gasses when exposed to fire. Due to this, they are a crucial component in environments where fire ...

Lightem offers a board variety of fiber optic cable for different outdoor condition, such as central loose tube armored cable, duct armored cable, direct buried cable, steel wire armored cable, non metallic ...

Double-sheathed flame-retardant optical cable

non-metallic

This type of optical cable is aimed to be used for voice, data, broadband and CATV transmission in Long Distance, Backbone and Local Area Networks with Aerial installation method. Special design suitable ...
