

After years of aggressive rollout, the Dutch FTTH market is maturing. Companies are realizing that simply laying fiber isn't enough; they need to convert those lines into active subscriptions...

The FCA is affiliated with E-LFA , the European Local Fiber Alliance that represents about 1,000 local and regional carriers throughout Europe. In addition, activities such as Fiber Trade Day, thematic ...

In November 2021, the construction of a super-fast fiber optic network in Rotterdam Prins Alexander has started. This is good news for more than 41,000 households in the neighborhoods of Ommoord, ...

The use of this new infrastructure enables ODF, now and in the future, to respond more quickly and flexibly to the increasing demand for ultra-fast and secure fiber internet, without having to worry ...

Open Dutch Fiber, an independent platform majority owned by KKR and with DTCP as minority shareholder, will deploy Fiber-to-the-Home ("FttH") broadband in the Netherlands across urban and ...

ODF heeft de uitrol versneld en het glasvezelnetwerk is de mijlpaal van 600.000 woningen gepasseerd, waardoor inmiddels meer dan 30 Nederlandse gemeenten zijn aangesloten.

Open Dutch Fiber (ODF) wants to connect 23,000 homes in the heart of Amsterdam to the fiber-optic--a vast project that requires complex and thorough preparations.

Consequently, ODF increases its target to connect more than 2 million homes in urban and semi-urban areas by 2025. The company offers an open platform for all operators with competitive wholesale ...

Intro-Fiber installs, maintains and manages fiber optic cable infrastructures, among other things. We work in the center and south of the Netherlands. In this way we contribute to a well-maintained fiber ...

The first Dutch landing will be at Eemshaven, in the country's northern region. The IOEMA project is establishing a state-of-the-art, AI-ready, high-capacity fiber optic connection ...
