

FS 10G SFP+ transceiver module solutions provide a wide variety of reliable 10 Gigabit Ethernet connectivity options for data centre, enterprise, and service provider transport applications.

The Intellinet Transceiver Module Optical is a high-performance network transceiver module designed for seamless connectivity in networking environments. This SFP+ module offers a maximum data ...

The Intellinet Network Solutions 10 Gigabit Fiber SFP+ Optical Transceiver Module (model 507462) is fully hot-pluggable, and that allows you to install the module without rebooting your network switch ...

10G SFP+ transceivers are available in many different transmitting and receiving types. Users can select the appropriate transceiver for each link to provide the &quot;optical performance&quot; that can be achieved ...

The Intellinet Network Solutions 10 Gigabit Fibre SFP+ Optical Transceiver Module (model 507462) supports standard digital diagnostics monitoring (DDM) functions, also known as digital optical ...

10GBASE-LR SFP+ transceiver compatible with 80+ brands. 1310nm, 10km SMF, 6dB budget. IEEE 802.3ae, DDM, CE/RoHS. From EUR12.

Whether you need a fast connection to your 10-GbE-equipped server or NAS device, or if you simply want to connect two Gigabit switches in your data center at higher speeds to eliminate bottlenecks, ...

The transceivers support to operate at 10Gbps serial optical data transfer rates on a single duplex fiber core with a length of up to 10,000m, ideally suited for data centers, enterprise and storage area ...

The transceivers support to operate at 10Gbps serial optical data transfer rates on ...

Genuine Amphenol 10GBASE-SR SFP+ Optical Transceiver Modules provide a high-density, high-performance interface for 10-Gigabit Ethernet and Fibre Channel applications.

10GBASE-LR SFP+ transceiver compatible with 80+ brands. ...

Proven quality at the best price. EU-based support, fast shipping, possibility of return.
