

Fiber Optic Converter Single-mode Dual-fiber Rail Type

Users can select different optical modules, such as multi-mode dual fiber, single-mode dual fiber, and single-mode single fiber. The media converter adopts enterprise-level telecom-grade chip solutions ...

OmniTron fiber to fiber media converters enable connectivity between multimode and single-mode fiber and dual fiber and single-fiber networks. OmniTron fiber to fiber media converters are made in the ...

Fiber Type: 20/40/60/80/100KM for Single mode. Optic Connector: SC (optional)/ST/FC. 1. Built-in efficient exchange kernel, Broadcasting filtration function, flow control, CRC error check. 2 ports ...

The UNICOM FEP-5401TF-C 15km Single-Mode Dual SC Fiber Media Converter converts 10/100Base-TX copper signals to 100Base-FX Single-Mode fiber optic signals, up to 15 kilometers. It features ...

It is suitable for optical fiber access application scenarios such as security monitoring, wireless coverage, intelligent transportation, and safe cities to form a cost-effective and stable communication ...

Understanding the distinction between single vs. dual fiber and single-mode vs. multi-mode is essential when deploying optical modules in any fiber optic network.

Users can select different optical modules, such as multi-mode dual fiber, single-mode dual fiber, and single-mode single fiber. The media converter adopts ...

Fiber optic converter with SC duplex connection (1310 nm) for 100Base-TX to singlemode fiber optics, DIN rail mountable, extended temperature range, redundant power supply.

For many campus and metro use cases, a single-mode BiDi pair is extremely attractive because it halves fiber usage, critical where duct space is tight or existing fiber counts are limited.

Supporting 10/100 Mbps data rates, this converter operates on single-mode dual fiber technology with a wavelength of 1310/1550nm, making it ideal for long-distance data transmission up to 20 kilometers.

Perle DIN Rail mountable Media Converters are used to enable connections of UTP copper-based Ethernet to various optical fiber cable such as multimode, single mode, or single strand fiber.

Fiber Optic Converter Single-mode Dual-fiber Rail Type
