

Visual end face inspection occurs between each polishing step of a fiber optic cable manufacturing process. With a 450 nm LED to illuminate the fiber end face, the VSD500 system provides clear ...

Industry's first AI-driven endface analysis for simplex, duplex and multi-fiber connectors. Delivers reliable and repeatable results with a self-contained, fully automated tool for zero-button testing all day--no ...

The HTO-7000B Integrated Optical Fiber End Face Detector is HOLIGHT's advanced end-face inspection system, built to support production, testing, and R& D environments.

Shop fiber optic inspection scopes, including single- and multi-fiber inspection products from trusted brands like Dimension, Domaille, Viavi, and Jonard.

Dimension is committed to building a series of portable fiber optic end face probes/microscopes, becoming ideal tools for inspecting fiber connector end-face defects before and after network ...

AutoCheck is the first intelligent integrated fiber end-face inspector developed by Dimension Technology. With the advantages of Dimension image analysis software and high performance ...

The new D Scope EFI for MTP/MPO and multifibers field connectors is a cost effective microscope for inspecting fiber optic patchcords and cassettes. Easy to use, the D Scope EFI allows the operator to ...

SUN-EC series of fiber end-face inspector has clear images and a long lifetime. It has 1.25mm and 2.5mm UPC universal male adaptors for a wide variety of connectors. It is easy to operate and widely ...

It adopts a large-field camera and high-precision optical system to realize one-time full-end face imaging and detection of multi-core connector end faces, and integrates fully automatic intelligent detection ...

The FI-7000 FiberInspector Pro is a fiber optic inspection scope that allows you to inspect and certify fiber optic connector end-faces in 1 seconds so you can get the job done the first time.

AFL Fiber Inspection Products enable network technicians and other personnel to safely inspect fiber endfaces for contamination and verify the effectiveness of fiber cleaning procedures.
