

Rochester Cable has supplied wireline cables to logging service providers for decades. Our designs combine mechanical strength, thermal performance, and stable electrical or optical characteristics, ...

With the increasing need for long-term high-temperature (HT) operation of logging tools, Sandia National Laboratories is now completing the evaluation of the four-conductor cable.

Discover Gabon. Explore Gabon facts, culture, history & comprehensive country profile with maps, statistics & research resources for students & travelers.

The results are reported of a one-year program designed to investigate the feasibility of optical techniques applied to well-logging, to extend measurement capabilities in high-temperature ...

The EGS (Enhanced Geothermal System) can generate variations in temperature, pressure and induced seismicity. It is therefore essential to ensure continuous, real-time monitoring of the well and its ...

A specialized cable system for high-resolution VSP acquisition using fiber-optic seismic sensors. Enables precise downhole seismic imaging, velocity modeling, and reservoir characterization through ...

The range of cables for direct buried installation includes all our four basic designs: concentric core, grooved core tape, DryTech and tape in loose tubes. The cables are reinforced with corrugated steel ...

The scope of the work involved the accomplishment of ten specific tasks. These had as their objective the determination of feasibility, and identification of major problem areas, in the implementation of ...

Gabon is a country in Central Africa with a long wild coastline of 885 km near the Atlantic Ocean. It borders Equatorial Guinea, Cameroon and Congo-Brazzaville. It has an estimated 2.2 million ...

Gabon is located in Central Africa, bordered by Equatorial Guinea to the northwest, Cameroon to the north, the Republic of the Congo to the east and south, and the Atlantic Ocean to ...

Gabon, a sparsely populated country known for its dense rainforests and vast petroleum reserves, is one of the most prosperous and stable countries in central Africa. Approximately 40 ethnic groups are ...

LOGGING SEALED FIBER-OPTIC CHANNEL CABLE AND METHOD FOR ITS MANUFACTURE
Download PDF

Gabon High-Temperature Logging Optical Cable System

Gabon, located on the west coast of Central Africa, shares its borders with Equatorial Guinea to the northwest, Cameroon to the north, the Republic of Congo to the east and south, and ...

This study presents the evolution of downhole fiber optics to a new hybrid electro-optical cable for coiled tubing (CT) applications. The optical fibers enable optical communication and ...

Extreme logging environments? No problem! The Xtreme high-pressure, high-temperature logging platform integrates technologies rated to 500 degF and 25,000 psi into one rugged, efficient toolstring.

Gabon, country lying on the west coast of Africa, astride the Equator. A former French colony, Gabon retains strong ties to France and to the French language and culture. The capital is ...
