

LC connectors are available in industry-standard beige (multi-mode), blue (single-mode), and green (angle polish) colors, and will accommodate 900 μ m buffered fiber, 1.6 mm, 2 mm, or 3 ...

The LC connector is the best choice for SFF interfaces today. As a division of Lucent Technologies, OFS released the LC connector to the market in 1996. Since then, over 20 companies have licensed the ...

o Interface: LC duplex interface for connecting two fiber optic cables. o Ease of Use: Modular design makes it easy to install, manage, and upgrade. o High Performance: Designed to maintain optimal ...

Our LC fiber optic adapters are constructed with a polycarbonate outer cover over a ceramic adapter. These LC-APC Single Mode Duplex Adapters are available in green, and are built to meet TIA-568 ...

LC Adapters and Cable Assemblies meet the growing demand for small form factor, high-density fiber optic connectivity with simplex, duplex, single-mode and multimode options. These connectors ...

It couples two LC duplex connectors in one module space and features a Keyed C-Green fiber adapter along with an international white module and has zirconia split sleeves.

The Mini-Com[®] Duplex LC Adapter is a small form factor (SFF) adapter with integrated panel retention clips and are TIA/EIA-605 FOCIS-10 compatible. It couples two LC duplex connectors in one module ...

ENET Fiber Optic cables are available in all connector types (LC, SC, ST, and MPO/MTP) in all lengths and core sizes including 9/125 (single-mode), 62.5/125 (multimode), and 50/125 (multimode).

The L-com FOA-801-GRN is a versatile Duplex LC to LC Single Mode APC fiber optic adapter, designed for high-performance network applications. Its low-profile, flanged design allows for easy integration ...

Opticom[®] Fiber Optic Adapter Panels (FAPs) are used with Opticom[®] Rack and Wall Mount Enclosures, Fiber Adapter Patch Panels, and Opticom[®] Zero RU Fiber Adapter Panel Brackets. ...
