

To meet this need, OFS offers Graded-Index HCS®; (GiHCS®;) Optical Fiber in a Low Smoke Zero Halogen (LSZH) fiber optic cable construction and easy-to-use crimp and cleave LC connectors.

Lightera HCS Fiber Cable Lightera Hard Clad Silica (HCS) Fiber Cable - Industrial Fiber Optics is an authorized distributor for all Lightera Specialty Photonics products. 200/230 μm, 400/430 μm, ...

Hard-clad silica (HCS) or polymer-clad fiber (PCF) is an optical fiber with a core of silica glass (diameter: 200 μm) and an optical cladding made of special plastic (diameter: 230 μm). In contrast to all-silica ...

FS provides multiple fiber optic cable types and cabling solutions proven in the demo scenario lab to ensure reliable high-speed network connections for data centers ...

The result is a very strong optical fiber with low attenuation (light loss) and an extremely high core-to-clad ratio. This high core-to-clad ratio is important for reasons of efficiency and systems expense.

HCS®; (Hard-Clad Silica) is a polymer coated optical fiber system invented by us in the early years of the optical fiber industry. A proprietary polymer is applied to the pristine surface of pure, fused silica as ...

Call us 24/7! 866-650-3282.

Find Hcs Fiber Optic Cables related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of Hcs Fiber Optic Cables information.
