

High-Temperature Replacement Solution for OPGW Fittings

An experienced and reliable supplier of Hardware Fittings and Accessories for Distribution & Transmission Overhead Line Network applications. All Products are manufactured and Type Tested ...

The double tension assembly for pass-through opgw is easy to install and requires minimal maintenance. The design of the fitting ensures that the stress on the opgw cables is minimized ...

An experienced and reliable supplier of Hardware Fittings and Accessories for Distribution & Transmission Overhead Line Network applications. All Products are ...

The products are applicable for connection protection of optical cables, with the functions of direct and branch connection, with the maximum of 6 optical cables, for overhead poles and tower structure.

Our RIBE-OPTOFIT® accessories offer the ideal solution for connecting fiber optic overhead cables and terminating the optical signal, and perfectly complement proven RIBE-OPTOFIT® fittings.

FIBERLIGN® Cushion Clamp provides excellent protection to OPGW at support points. The combination of the Structural Reinforcing Rods and the elastomer inserts at the ends of the clamp body halves ...

Utility-grade OPGW hardware engineered for durability and safety. CYSKO supplies OPGW fittings designed for power utilities and telecom operators for installing overhead fiber in high-voltage ...

Also see our line of OPGW Fiber Optic Cable. © Copyright 2026 AFL. All Rights Reserved | Privacy Policy | Sitemap.

Prysmian's ADLA system provides a complete solution, including robust dielectric cable, installation machinery and accessories that allow efficient installation on distribution lines.

Available PARROT-BILL ends to meet the corona onset and RIV requirements for most EHV applications. PLP transmission, distribution, substation, fiber optic, ...

Learn OPGW fittings for power lines and power transmission solutions to enhance grid reliability, prevent failures, and ensure long-term performance.

Made from high impact, UV resistant, polyvinyl chloride (PVC), they are noncorrosive and do not abrade the OPGW or require engineering calculations for positioning.
