

Hungarian Standard Medium and Low Voltage Complete Set of Equipment

Thanks to its compact design and high power density, this series supports a 1.3 DC/AC ratio, saving on equipment investment. It supports three-phase unbalanced output, expanding application scenarios.

The core activity of our company is the installation, implementation of various low and medium voltage electrical networks and systems. We are qualified entrepreneurs of all electricity suppliers currently ...

Choose from Schneider Electric's expansive ranges of breakers and fusible switches on the primary, dry type and liquid filled transformers, and medium and low voltage equipment options on the secondary ...

Our installation capacity, including subcontractors, is in the order of 100 people, all of whom are proven and experienced professionals. The manufacture of strong current (0.4 kV) and control panels plays ...

ABB's medium voltage products are designed to meet various international standards and are used across multiple industries, including industrial, commercial, and renewable energy applications.

The company specializes in the design, installation, and operation of low and medium voltage networks, which is directly related to electrical supply. Additionally, it provides services in the installation of ...

With Technopower's advanced solutions, you can access high-quality low voltage (LV) equipment and medium voltage switchgear built to meet the strictest standards of performance and ...

We provide a high standard service background for medium- / low voltage transformer substations, low voltage switchgear units manufactured by us and for switchgears distributed by us.

We manufacture and modify equipment from 0.4kV up to 22kV. These include. The equipment is manufactured, certified and CE marked in our own workshops, in full compliance with the relevant ...
