

The WaveShaper 1000A and 4000A allow arbitrary optical filtering of attenuation and phase across the S-Band and the U-Band of optical communications. In addition, the 4000A allows wavelength ...

The WaveShaper's Series A Programmable Optical Processors provide a range of programmable optical filtering and switching options for optical R& D and production test applications.

With a highly advanced high-resolution, solid-state Liquid Crystal on Silicon (LCoS) optical engine, the WaveShaper family provides extremely fine control of filter characteristics, including center ...

1PCS NEW PHILIPS DDBC516FR Optical module Via FedEx or DHL \$836.31 previous price\$950.35

1 PCS NEW IFVI 741363 optical lens DHL shipping.

Amphenol's XPO (200G per lane) optical modules incorporate both LPO and LRO solutions, which adopt standard MPO optical ports and are compatible with XPO Module ...

The WaveShaper family is used in a wide variety of applications, including optical communications, pulsed lasers in the medical and material processing area as well as optical sensors.

NEC has been developing and manufacturing optical transceivers for more than 30 years since the dawn of the optical communications era. Based on this extensive experience, we provide high-reliability ...

Enhance your 10G optical transceiver testing with the AQ2200-642, which combines bus and power control features into a single module. This solution simplifies test setups and reduces costs by ...

View the TI Optical module block diagram, product recommendations, reference designs and start designing.

Find many great new & used options and get the best deals for 1 PCS NEW IFVI 741363 optical lens DHL shipping at the best online prices at eBay! Free shipping for many products!
