

Elimold is a leading provider of optical injection molding services, with plastic parts that meet international quality standards. Our optical molding experts can guide you through the entire process, ...

Injection molded cable assembly, sometimes referred to as over-molding, is not only aesthetically appealing but also helps protect cables from extreme weather, intense pressure-wash ...

Compare optical injection molding materials (PMMA, PC, PS), processes (Standard, Precision, Micro), and mold design for optimal product performance. Make informed choices.

MPM injection molding machines are ideal for cable overmolding applications. A wide range of industries use our machines, including medical, automotive, consumer products, and more.

Explore how plastic injection molded optical fiber connectors and enclosures contribute to modern telecommunications infrastructure's efficiency, reliability, and scalability.

Here's a behind-the-scenes look at Galaxy's QC process from start to finish, including the manufacturing of overmolded cable assemblies / molded cable assemblies / injection molded cable assemblies.

The molding can be used to route and protect cabling for low voltage data, voice, video, and fiber optic applications. Fittings are available for routing direction changes as well as extensions and ...

In addition to overmolding, Axon" Cable is able to manufacture molded parts including connector shells, inserts and sleeves. Axon" injection presses are able to manufacture several pieces per minute.

Learn the advantages of molded cable assemblies, including injection molding, and low-pressure molding and manufacturing at Nortech.

The injection molding process is a key factor in cable overmolding as it allows the machinery to accurately control the critical tolerances to the external temperature and pressure.

Our 55,000-square-foot manufacturing facility in San Jose, California, is specially equipped for precision injection molding of any device. With 30 molding machines from 28 to 500 tons, we can handle small, ...
