

# Intelligent Micro-Module Computer Room System

It perfectly integrates cabinets, cold aisles, access control system, cooling system, power distribution system, security protection system, and other systems efficiently.

**Product Description** A solution specifically for the construction of small and micro data centers. All subsystems of the data center are integrated in the cabinet, which integrates power distribution, ...

Leveraging modular, prefabricated, and intelligent design principles, the Smart Micro-module Data Center achieves deep physical integration and logical synergy across subsystems--including power ...

The micro-modular computer room solution launched by Shijiazhuang Hejia Technology Co., Ltd., with its energy-efficient design, intelligent operations and maintenance, and rapid ...

The modular architecture can be easily assembled on-site to complete business delivery, which can save 50% of the delivery time and personnel investment compared to the traditional construction ...

7 Intelligent Micro-Module 7.1 Functions, Features, and Specifications 7.2 System Running 7.3 ECC 7.4 Camera 7.5 Equipment Room and Structure 7.6 Access Control and Card swiping 7.7 APP and PAD ...

**Rapid Deployment:** IDM Intelligent Micro Modular System integrates power, cooling, and monitoring, cutting on-site installation time by 50% for finance, government, ...

The KITOZER Intelligent Micro-Module Computer Room and Environmental Monitoring System is an integrated computer room solution that combines modular design, intelligent ...

**Rapid Deployment:** IDM Intelligent Micro Modular System integrates power, cooling, and monitoring, cutting on-site installation time by 50% for finance, government, and healthcare sectors.

The document describes three intelligent micro-module data center solutions: Fit Atom single cabinet, Fit Array single-row, and Fit Atrix double-row. Fit Atom is a single cabinet solution for small spaces.

Their innovative, tailored product offering encompasses a range of intelligent solutions designed to boost computer room performance, ensuring reliability and efficacy.
