

Search Newegg for 100gb switch. Get fast shipping and top-rated customer service.

FS 100G Switches offer high programmability and scalability, designed for large enterprises and hyper-converged infrastructure (HCI) networks. Learn more!

I have chosen the hardware for ceph, and for the cluster extension, and all that is left is a 100G top of rack switch with preferably 32+ ports (to be able to connect the whole rack into a single 100G network).

This switch features 20 10Gbps Base-T ports and 4 combination ports, providing high switching capacity and advanced functionalities suitable for data centers and core applications.

Now it's time for a matching switch - the CRS504-4XQ-IN. The small size combined with the low power consumption (25W without attachments!) is perfect to start expanding 100 Gigabit networking in ...

The built-in switch chip provides up to 3.2 Tbps bandwidth and line-speed L2 and L3 switching. The switch support up to 32 x 40/100 GbE, 64 x 50 GbE or 128 x 10/25 GbE port connections.

The C-LIGHT CLS6862-54XC is a 100G high-performance switch designed for data centers and enterprise networks, delivering robust performance, reliability, and scalability.

Explore Edgecore's high-performance 100G and 40G bare-metal data center switches for ToR and spine deployments. Featuring the industry's first OCP-accepted 100GbE switch, we deliver scalable, non ...

MikroTik CRS510-8XS-2XQ-IN A versatile 100 Gigabit switch that offers speed, value, and diverse...

FS 100 Gigabit data center switches with build-in broadcom switch chip provides powerful hardware switching capacity and data center features (supporting stacking, MLAG, RoCEv2, PFC, ECN, ...
