Italy uses electrical outlets and power plugs of types C, F & L (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Most modern electronic devices (smartphones, tablets, laptop chargers, camera chargers) are designed to work with both 110-240V, making them safe to use in Italy with just a plug adapter.

This means that you will not need a converter or transformer but just a travel adaptor, because Italy operates on a 230V supply voltage, which is within the 110-240V range that the dual voltage ...

Do I Need A Power Adapter For Italy?Electricity in Italy - Voltage and FrequencyFrequently Asked QuestionsBelow are the answers to some of the most frequently asked questions about Italy outlets and power plugs:See more on world-power-plugs colpoezilio Our stores - shop lpoezilio Our stores COLPO & ZILIO S.P.A. Yes. The US uses 120V, Italy uses 220-240V. US plugs are Type A/B, Italy uses Type C/F/L, so you need a voltage converter and plug adapter.

The Golpe Borghese was a alleged Italian coup d'etat attempt, allegedly planned for the night of 7 or 8 December 1970. It was named after Junio Valerio Borghese, wartime commander of the Decima ...

Outlets in Italy support either Type F or Type L plugs, as well as Type C. This means American Type A/B plugs are not the right shape--and you will need an adapter.

Italy utilizes type C, type F, and type L power plugs. Type C plugs have two round pins, while type F plugs also have two round pins but come with an additional grounding clip. Type L plugs, unique to ...
