This document describes perforated cable trays in three different styles - light, standard, and heavy duty. It provides details on the tray materials, dimensions, ...

Description: This product category covers metal cable trays and metal cable tray systems intended for field assembly and for use in accordance with Article 392 of NFPA 70.

Steel ladder tray has low thermal expansion (low coefficient) and provides electric shielding for low level control circuits when used in electro-magnetic shielded ladder trays.

The Ladder Tray features light, rugged, tubular steel construction. It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable.

Each Cable Tray System includes a range of factory manufactured bends, tees, reducers etc. that are unique to the sizes and ranges that incorporate fast fix integral couplers for a better fit and quicker ...
