

Low Insertion Loss Splitter Smart Overseas Warehouse

Very satisfied with this purchase. The patch cords work perfectly in our office network setup. Low loss, solid connectors, and fast delivery. Will order again!

PLC Splitter features guaranteed performance specifications and high reliability that surpass Telcordia requirements and is suitable for many singlemode optical splitting applications.

PPI Inc. is a leading company in the optical electronics industry that is gaining global attention for its splitter, which is key component for FTTH and AWG based on PLC technologies.

Corning's QuickPath(TM) PLC optical splitters reduce insertion loss and deliver high performance. These devices enable more effective monitoring and management of optical networks. They are available ...

PLC (Planar Lightwave Circuits) splitters are developed using silica glass waveguide circuits and aligned fiber pigtailed, integrated inside a miniature package. PLC splitters provide low ...

FBT optical splitter, also known as optical splitter, is one of the important passive components in optical fiber circuits, and it is an optical fiber junction device with multiple input ends and multiple output ends.

Find optical fiber splitter loss with low insertion rates for FTTH and telecom use. Shop our range of PLC splitters for efficient signal distribution.

Kamaxoptics presents its PLC splitters with low insertion loss, linear uniformity and low return loss.

The Ultra Broadband Low Loss Splitter/Combiner DEV 2644 is wall mountable compact 1:4/4:1 passive splitter or combiner. The low slope, the high port-to-port isolation and the very low difference in ...
