

Low-temperature resistant integrated wiring boxes and cabinets for supercomputing centers

Keep your equipment running smoothly even in extremely low temperatures with INTERTEC's insulated and heated enclosures.

Hoffman enclosures feature design elements such as NEMA-rated sealing, foam gaskets, corrosion-resistant fiberglass, UV-resistant materials, and robust latching systems to protect electrical ...

We engineer our electrical enclosure boxes to safeguard sensitive equipment, optimize system performance, and ensure maximum uptime, even in the most challenging environments.

We manufacture NEMA/IP rated, heated enclosures with heat strips, full heaters, and insulation specifically designed to maintain the interior temperature of your enclosure without affecting its ...

Our product portfolio includes custom NEMA & IP rated enclosures, wall-mounted and freestanding enclosures, modular cabinets, industrial consoles, junction boxes, and much more.

NEMACO designs and manufactures electrical enclosures for environments where failure is not an option. Every product is built to NEMA specification, UL Listed on applicable lines, and fabricated in ...

Purcell makes the decision easy, by offering specially engineered families of standard, modular, and configurable equipment cabinets to fit every deployment scenario.

Rakworx is a manufacturer of data center infrastructure. Integrated server cabinets, Power Distribution Units, All-In-One Cabinets and Modular Data Centers.

Temp-Pro's rugged electrical enclosures are designed to withstand harsh environments, offering customizable protection for critical industrial equipment.

We design and manufacture electrical cabinets for areas with extreme temperature conditions, both in high and in low temperature.
