

With the trend of high speed Ethernet, 10/40/100Gbps, Edgecore switches offer a complete set of advanced software features that will easily satisfy the demands of enterprises and SMBs everywhere.

The SFP network switches on this page are intended for use with large fiber optic networks with limited Ethernet connectivity. If you are looking for SFP switches that are ideal for "blended" networks of ...

TRENDnet's 12-Port 10G SFP+ switch features ultra-fast link speeds & advanced layer 2 management features. This 10Gb fiber switch is a cost-effective & reliable solution to adding 10G speeds to any ...

Featuring 10GbE support for aggregation of today's higher megapixel cameras. Intended to be used as your core switch to connect your edge PoE switches and the recording servers, along with any other ...

Core switch for small and medium-sized enterprise networks, with high scalability, efficiency, and manageability, and device-level and link-level reliabilities for stable connectivity.

Edge to core stackable platform, from 1 Gigabit to 100 Gigabit, all within 15.75in (40cm) of depth. A simplified user interface makes it easy to assign configuration profiles to each port. NETGEAR IGMP ...

High-performance 10G SFP modules for optimal connectivity. An 8-port, Layer 2 switch made for 10G SFP+ connections.

This data sheet describes the benefits, specifications, and ordering information for the Cisco SFP Modules for Gigabit Ethernet Applications.

Switch SFP specialises in optical transceivers and network cabling, supporting all IT vendors. We're on your Wavelength. An experienced and specialist UK team supplying over 12,100 vendor specification ...

L3 managed Ethernet core routing switch with 6*1/10G uplink SFP+ fiber ports and 48*100/1000M SFP ports. Built-in 75W power supply and supports 1U/19" cabinet installation.
