

Multifunctional Optical Cable Extrusion Line

Telenco designs and manufactures top-of-the-range optical cables for telecoms operators and installers. Thanks to a controlled extrusion process, rigorous quality controls and an integrated test laboratory, ...

Bausano, a leader in extrusion lines, offers solutions tailored specifically for the production of fiber optic cables, empowering the telecommunications industry with seamless connectivity and unparalleled ...

WHY FIBER-LINE[®]; EXTRUSION? Overview FIBER-LINE[®]; extrusion is the process of forming a polymer jacket of various thickness around a core of high-performance fibers. Fiber core can be ...

It is small in size, quiet in operation, and does not require any special maintenance. Mounting to the engine is via a belt transmission. Physically separable from the machine connected by connectors. ...

The line is equipped with very high precision tension control devices, which runs in complete close loop system. The fast dynamic response correction system manages the perfect diameter of cable at any ...

Production of indoor optical fiber cables including FTTH, drop, simplex, duplex, distribution, break out and riser optical fiber cables. DTSZ stranding and our ROEX extruder technology are the key for ...

With our special wire extrusion equipment, you can process micro-coaxial cables as small as 0.025 mm in diameter. A product with these properties is mainly used for high-end applications, e.g., in medical ...

The optical cable extrusion production line is standard equipment in optical cable manufacturing plants, and its applications cover the sheathing production for all types of optical cables.

Cable structures: A. Simplex duplex patchcord cable outer diameter: 1.2/1.6/2.0/3.0mm, 0.6/0.9mm buffer fibers + Kevlar/aramid yarn strengthen members + LSZH/PVC sheath.

By adopting our technology for stranding and jacketing in tandem, you make your fiber optic cable manufacturing process more efficient. Also, when you combine our stranding unit and yarn server, ...
