

Contact Now & Share Describe Fiber Parameters ... Cable Parameters ... Mechanical and Environmental Characteristics

CommScope bundles hybrid cabling to your custom specifications, using our high-performance fiber-optic, unshielded twisted pair and coaxial cables.

AOC was developed as a replacement for the DAC (Direct Attach Copper) cables and is primarily used in data centers and other high-performance computing environments. Compared to typical copper ...

The system consists of the power supply unit, optical/electrical hybrid cable, optical/electrical hybrid adapter, and the optical/electrical hybrid connector. These can transmit optical signals and electrical ...

DuetConnect Hybrid Copper-Fiber Cables allow one cable to offer the advantages of DC power and fiber, safely delivering both over long distances to remote locations where standard power is ...

Currently, the H3C iOptic Ethernet solution provides a variety of switches suitable for hybrid cables, which can provide centralized power supply for connected APs and node switches, allowing users to ...

CommScope offers Hybrid Cables for its hybrid fiber/copper powered fiber cable solution

Brand Name: OEM ODM Place of Origin: Zhejiang ningbo China Product name: Fiber Optic Cable Cable Type: optical-electrical composite cable Application: Buried, underground duct Fiber type: SM/MM ...

We provide Optoelectronic hybrid cable, used to access network and connect BBU and RRU in DC remote supply system of distributed base station.

SFP transceiver that supports 1G connections up to 550 m using multi-mode fiber with a duplex LC UPC connector.
