

FS provides 1/2/4G transceivers modules in SFP form factor, supporting transmission distances from 100m to 120km over SMF/MMF fiber and enabling low power and ...

LINK-PP offers a wide range of 1G, 2.5G, and 4G optical transceiver modules tailored for legacy network systems, industrial applications, and access-layer deployments.

These small, modular optical interface transceivers offer a convenient and cost-effective solution for an array of applications in the data center, campus, metropolitan-area access and ring ...

Shop SFP Module for all switches, including 155M, 1G, 2.5G, 3G& 4G speed, 100m to 160km. Compatible with 80 OEMs like Cisco, Juniper & HPE, Saving 80%, Fast shipping & 5-year warranty.

Get the pluggable module performance you need from the manufacturer of choice for all major networking equipment vendors worldwide.

Full range of 1.25G/2.125G/4.25Gbps SFP optical modules available, compatible with Cisco, Huawei, HPE and other major switch brands. Ideal for enterprise networks, data centers and Fiber Channel ...

A fiber optic transceiver is adapted for use in transmitting and receiveing optical signals in a fiber-optica network. With strong research and development capabilities, 10Gtek designs and manufactures a ...

Ozark's Optical Transceiver Modules offer seamless connectivity with versatile options, including 1G, 2G, and 4G modules tailored to your requirements.

SFP - small form factor - pluggable modules for various optical data communications such as Fast Ethernet, Gigabit Ethernet, BiDi, SDH Sonet and 4G.

Optical Transceiver Modules/SFP, also called fiber optic transceiver or optical transceiver, is a typically hot-pluggable device used in high-bandwidth data communications applications.
