

Discover the 400G PSM4 optical transceiver in our comprehensive guide. Learn about its compatibility, features, and performance in data center applications.

Mellanox's MMS1C10-CM transceiver is a parallel, single mode, 1310nm, 4-channel (PSM4), pluggable, QSFP28 optical transceiver designed for use in 100GbE Ethernet applications. It is also qualified for ...

QSFP28 transceiver that supports 100G connections up to 2 km using single-mode fiber with an MPO-12 APC connector.

The Intel's Silicon Photonics 100G PSM4 (Parallel Single Mode fiber 4-lane) QSFP28 Optical Transceiver is a small form-factor, high speed, and low power consumption product, targeted for use ...

The QSFP-100G-PSM4 Optical Transceiver Module is designed for use with PSM4 cables in 100GBASE Ethernet networks, supporting transmission up to 500 meters over single-mode ...

It is a small form factor, high speed, and low power consumption product, targeted for use in optical interconnects for data communications applications. The high bandwidth module supports 100GbE ...

FIBERSTAMP 100G QSFP28 PSM4 immersible cooling optical transceiver modules are used for medium to long distance interconnections in data centers and are compliant with the 100G PSM4 ...

FIBERSTAMP 100G QSFP28 PSM4 immersible cooling optical transceiver modules are used for medium to long distance interconnections in data centers and are ...

The 100G QSFP28 PSM4 transceiver is specifically architected for high-density single-mode breakout topologies. Unlike CWDM4 modules that multiplex signals over a duplex LC interface, the PSM4 ...

Designed for medium-reach applications, the module supports single-mode fiber cable transmission distances up to 2 kilometers (1.2 miles), making it ideal for data center interconnects, campus ...

Discover the 400G PSM4 optical transceiver in our comprehensive guide. Learn about its compatibility, features, and performance in data center ...

The LUX42604 QSFP optical modules contain four parallel fiber optic transceivers w/ full duplex operation, each operating at data rates from 1 Gbps up to 25.78 Gbps and supporting a reach up to ...
