

The UNI-T Handheld Optical Power Meter UT692D is a portable, precise tool for measuring optical power in fiber optic systems. Ideal for telecom, installation, and maintenance applications.

When connected to the light source with 270Hz, 1000Hz or 2000Hz signal, the optical power meter will automatically recognize the frequency and display XXXX Hz on the LCD.

The UNI-T Handheld Optical Power Meter UT692G is designed to provide reliable, precise measurements of optical power in fiber optic cables and systems. This portable device is equipped ...

UT692/693 SERIES Optical Power Meters/Optical Multimeter (Power Meter Low battery indication Auto power off IP65/2m drop proof Flashlight

VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and ...

The UNI-T UT692D is a handheld optical power meter for fiber optics, measuring absolute and relative optical power across 800-1700 nm with IP65 durability.

UT692 series are designed to be durable, the meters can withstand 2m drop and have a dust/water resistance rating of IP65. In addition, UT692's other features include backlight display, flashlight, auto ...

UT697 combined with optical light source and optical power meter, optical lightsource can provide 1310nm and 1550nm dual wavelengths to meet specific requirements.

The UT692 series handheld optical power meters are used to measure absolute optical power or relative loss of optical power through length of fiber optic wires. UT692 series are designed to be durable, the ...

Optical power meters for any network. A range of handheld meters with choice of styles. Best accuracy, flexibility and easy to use.
