

High stability concrete or composite cable trough systems for secure protection of cables and utilities within internal or external surfaces.

Waskey precast cable trench systems provide durable, safe, and easy-to-install solutions for managing underground cables efficiently.

Manufactured using an advanced high-pressure, high-heat molding process, the Plastibeton® cable trench system offers flexibility and strength, exceptional resistance to freeze/thaw conditions and is ...

The evenly spaced holes and slots in our trays provide efficient cable management and optimal air circulation for improved cable performance. With a high load-bearing capacity, our trays can be ...

Pre-punched holes for connection of fittings and conduits.

Custom pre-galvanized perforated cable trays offer advantages such as cable protection, good ventilation, heavy load-bearing capacity, durability, corrosion resistance, and easy installation.

Precast Concrete Trench products available at Trenwa.

Cable tray installed in a hazardous location must contain only those cables that are appropriate for this type of environment as defined in Chapter 5 of the NEC.

Ensure organized and secure cable management with durable precast cable troughs. Ideal for various applications. Contact us today to discuss your project needs!
