

Withdrawable protective relays for demanding Medium Voltage applications Medium Voltage protection relays with a focus on safety and cyber security. Easy to use for OEMs, system integrators and end ...

In addition to the monitoring functions, the RM2000 can be used to reset a tripped ...

The relay is calibrated before it leaves the factory. M-PRO 2000 relay front and rear panel layout

In addition to the monitoring functions, the RM2000 can be used to reset a tripped relay. The RM2000 is easily mounted remotely and improves safety for service and operations personnel by allowing them ...

The M-PRO 2000 is a multifunction motor protection relay designed for comprehensive protection and monitoring of induction motors, featuring advanced communication capabilities and user-friendly ...

Built-in overcurrent, overvoltage, and reverse connection protection effectively prevents damage to vehicle electrical components and batteries caused by short circuits, voltage instability, and reverse ...

Versatile Applications: This relay has a universal application and can be used in a variety of automotive functions, including 12 Volt Air conditioning, Headlight, and Fan, providing convenience ...

otor protection relay for low and medium voltage applications. This product includes metering, communications, fault logs, disturbance recordings and equence of events with 1ms time stamp ...

The SELCO M2000 Engine Controller will control and protect any industrial combustion engine, which accepts discreet I/O signals for control of the crank, the fuel valve and the stop solonoid (if applicable).

PC& S offers an extensive range of AC and DC monitoring relays with the M200 series. The relays provide continuous monitoring of electrical systems. Customer ...

After 30 days there will be a restocking fee, learn more.

The mPRO-200 protective relay is an advanced current based numeric relay that provides multi protection and monitoring in compact Din-rail enclosure.
