

Operator only needs a little knowledge of computer. Keyboard and mouse interface are also allocated on the faceplate. If you would like to use the external mouse and keyboard, through plugging them with ...

USB interface, 10-100M net mouth and serial communication interface are located on the back plate of this tester, through which you can access data, communicate data and upgrade software ...

Summary: Learn how to efficiently test overcurrent relays with the OMICRON Test Universe. Get familiar with the test procedure in hands-on and theoretical sessions.

To demonstrate the harmony and interoperability among our devices and software, Mario P&#233;rez, Senior Technical Application Engineer, presents an end-to-end test using Protection Suite(TM) and Doble ...

With its large, full colour, high resolution, TFT LCD touch screen, it allows you to perform manual, steady-state, and dynamic testing quickly and easily using the manual test screen, as well as using ...

With the VIGEN voltage channels converted to currents, a three channel unit can provide 6 currents for testing three phase current differential relays, including harmonic restraint transformer differential relays.

The complete handbook combines basic electrical fundamentals, detailed descriptions of protective elements, and generic test plans with examples of real-world applications, enabling you to confidently ...

Immediately adjust the current amplitude, amplitude step, etc., switch the multimeter to the AC gear, plug the multimeter head into the current output of the panel, and turn the button on the ...

This section of the manual contains the information that you will need in order to set up and use your STVI with the SMRT or MPRT Relay Test Systems. This section also includes description of the ...

After data setting, press confirm, the screen will appear the state chart of relay contacts, and the test begin. The variations can change automatically or manually, and the method is similar to AC test.

If the relay failed at the N/O contacts or N/C contacts and the relay is an instantaneous relay with no gold contacts, clean the contacts (see page 9) and test again
