

SC12 CORE BUNDLE PIGTAIL: using high-quality ceramic ferrule, low insertion loss, large return loss, higher reliability, better stability, better coaxiality and dimensional accuracy.

12 Fiber SC Pigtails are pre-terminated fiber optic cables with twelve individual SC connectors on one side and bare fiber on the other. These pigtails are typically used in fiber patch ...

Canovate's SC Pigtails are available with different buffer and jacket types and colors, including bare fibers (250 microns), tight buffers (900 microns) or jacketed minicables in simplex or duplex (zip ...

Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Available in a range of multimode and single-mode fibers with SC, ST or LC connectors. Our premium pigtails ...

Our 12 strand SC-UPC Multimode Fiber Pigtail Kits are available in standard glass, utilize color coding and perform to meet TIA-568-C.3 standards.

This SC pigtail is a single mode cable with high-grade SC APC fiber optic connector on one end, another end unterminated. It can configure multimode fiber as well for the specific application.

Find high-quality fiber optic pigtails for reliable network termination. We offer a full range of single mode and multimode pigtails with SC, LC, ST, and FC connectors.

The SC Fiber Pigtails (APC, UPC) are available in both single and multimode versions. Our Fiber Pigtails come with a partial outer jacket, protecting the tight buffers from damage.

Fiber optic pigtail for terminating cables with splicing with SC/PC connector. Sold in 12 pack.

PT offers a wide range of fiber optic patchcords with low insertion loss, high stability, and excellent mechanical performance. Ideal for optical communication, data centers, FTTx, and fiber sensing ...
