

FIBRAIN has provided fiber optic cables, VFTO-E1 client sockets, patch panels, patch cable to Skyline Belgrade.

Fluorescent fiber optic systems are the gold standard for switchgear, transformer, and power equipment monitoring due to their point-measurement accuracy of  $\pm 0.5^{\circ}\text{C}$  and intrinsic safety.

Telegradnja is a company that deals with consulting, design, construction and maintenance of telecommunications infrastructure.

Samm Teknoloji's FOTAS sensing cable is a high-performance fiber optic sensor cable compatible with both Distributed Acoustic Sensing (DAS) and Distributed Temperature Sensing (DTS) systems.

List of optical-fiber-sensor companies, manufacturers and suppliers serving Serbia

Neoptix is a fast paced, imaginative and agile company that designs and manufactures fiber optic temperature sensors for manual and automated measurements for transformer windings temperature ...

Our company specializes in the import, sale, and distribution of a wide range of cables, conductors, electrical equipment, cable accessories, raw materials, and supplies used in various industries and ...

Leading developer of fiber optic temperature sensing and partial discharge monitoring solutions for switchgear, data centers, energy, and life sciences, delivering critical insights for electrical ...

AP Sensing's fiber optic sensor cables enable real-time, precise monitoring of temperature, strain & acoustics in harsh environments with minimal maintenance.

The distributed fiber optic measurement systems consist of a special optical interrogator and fiber optic sensor cables with a coating which is best adjusted to the installation on the structure.

# **Serbian fiber optic temperature measurement cable brand**
