

Single Core Optical Cable Junction Box for Oil and Petrochemical Industries

Complete with extreme circuit integrity during fires up to 1000°C, ALPAM 2.0 is designed with a smaller cable diameter and higher fibre optic capacity compared to conventional fibre optic cables.

Applying our proven design found in the TNCN product line, we are able to provide long-term highspeed junctions in potentially hazardous locations.

This eliminates the need for time-consuming recertification and the entire inspection process is completed in just a few minutes. The junction box is also extremely robust and can therefore ...

Electrical junction boxes by Raychem RPG ensure safe wiring connections, enclosure protection, and reliable cable management.

RI understands the critical importance of compliance with rigorous safety standards in hazardous environments such as petrochemical plants, offshore rigs, and refineries.

Find your petrochemical and refinery installation junction box easily amongst the 7 products from the leading brands (YSCABINET, DSE, Eltherm, ...) on DirectIndustry, the industry specialist for your ...

Larger sizes suitable for terminating offshore umbilical cables with power and data (fibre optic) cable cores. Special versions are available with additional chambers for terminating hydraulic and ...

For operators and EPC contractors seeking pre-assembled, modular, explosion-proof solutions, E-abel provides tailored junction box systems that meet the most demanding oil and gas ...

Applying our proven design found in the TNCN product line, we are able to ...

This proven tested reliability of the CCG Ex Junction Box range makes it an obvious choice for use in harsh explosive gas and dust environments such as those found in the pharmaceutical, food, pulp ...

Drawing from 75 years of industry experience, we pride ourselves in the manufacturing and distribution of highly innovative Electrical Cable Glands, Electrical Junction Boxes and related accessories for ...
