

Reliable support systems for cable tray and busbars, designed for electrical and mechanical installations. Available in corrosion-resistant coatings.

We manufacture a wide range of products capable of providing the characteristics which respond to the proposed application, along with quality of assembly, speed of installation, and cost-saving cable trays.

It is designed for mechanical support and strain relief in long runs of cable and creates a smooth gradual bend for cable. Rail and stringer material is 16 ga steel tubing.

Designed for modern industrial demands, our trays offer exceptional corrosion resistance, high strength-to-weight ratio, and fire-retardant properties--making them ideal for harsh or mission-critical ...

HDT steel cable tray, for heavy duty job, comes in standard height of 50 and 100mm. FCT cable tray made of corrosion resistant fibre reinforced plastic, comes in standard height of 50mm and 80mm. ...

Our cable trays are used in factories, commercial buildings, data centers, solar power systems, and infrastructure projects like metros and airports. They are also great for the oil and gas, chemical, and ...

We offer a wide range of cable tray systems to support tubing, electrical cables and instrumentation. Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and ...

They are especially useful in situation situations where changes to a wiring system are anticipated, since new cables can be installed by laying them in the tray, ...

These fittings are used in conjunction with cable trays to support cables in ventilation holes, assist with directional change of piping systems, and aid cable channelling around obstacles.

We don't just sell cable trays; we provide exceptional service and expertise. Our team of qualified professionals can assist you with product selection, system design, installation support, and much ...

PHP's cable tray support system is engineered to sustain various sizes of cable runs on your rooftop. PHP is the leader in cable tray support systems.

Combining local manufacture and distribution with an extensive product range, these facilities ensure we can effectively support customer demand and respond rapidly to project timelines for all types of ...
