

So, it is not a surprise that the optical fibre cables, originally for pulling in duct, were mechanically reinforced and were taking also advantage of the loose tube design offering a significant fibre ...

The document provides installation procedures for OPGW fiber optic cables. It describes surveying the line to determine cable lengths and splice positions. It ...

Corning Optical Communications recommends the use of a factory or field-installed wire mesh pulling grip and swivel during cable pulls. Pulling grips provide effective coupling of pulling loads to the ...

Planning a network deployment? Discover the 5 most common mistakes when pulling fiber optic cables through conduit and learn how to prevent costly damage.

Fiber optic cable is surprisingly strong, durable and pliable; however, several best practices should be followed to ensure a successful cable installation. This article explores recommendations for pulling ...

Rotating Eye, K-Type Pulling Grips are made of high strength galvanized steel strand. All grips feature double weave mesh for greater strength and added mesh contact on the cable, to handle longer or ...

The following article explores best practices when pulling fiber optic cables and cable assemblies. Following these guidelines will help protect your system's optical performance, reduce ...

The Cleerline SSF-PULLEYED is specifically designed for pulling pre-terminated simplex cables, duplex cables and active optical cables (including models built for HDMI, DisplayPort and ...

The quality tools from Katimex® are easy, safe and quick to use. For comfort and precision with every cable pull in domestic-, underground- and fiber optic installation.

Dual weave design from galvanized wire rope. Used for the installation of fiber optic cables for either overhead or underground applications. Made of Galvanized Steel.

Lashing wire is a durable steel wire that securely binds (lashes) other wires and cables together. It is widely used in the telecommunications industry, where numerous cables and wires are needed to ...
