

Sudan installs 1G fiber optic enterprise router

Our robust metro fiber infrastructure demonstrates our network's capability. This allows us to deliver faster, more flexible, and stable Internet and communication services to our customers.

Connect your small business with the most reliable fiber internet. Professional installations, no annual contracts or data caps, and 24/7 dedicated support.

Planned since ETC activation in Sudan in late 2023, the undersea fibre connectivity solution has been designed to ensure longer-term access to local services and infrastructure.

This edition brings compact industrial LTE, compact PoE with built-in backup power/battery option, and a distributor story that proves performance doesn't need enterprise pricing.
