

Take the electrical box with you when you leave the house

You can't safely remove the box with the power still on, but you could take all of the breakers out of it if you wanted. They're probably worth more than the box.

There's no NEC requirement that the end of an abandoned cable, energized or not, be inside a junction box. You can tape or wire nut it off and stuff it inside the wall, if you want to, and ...

Schedule an electrical examination of your house with a reputable electrical firm, such as Austec Electrical, before taking a long trip. A comprehensive check will reveal dangerous equipment, ...

It's a common misconception that if we're not using something, it's not pulling from the electrical source, but in fact, there's a lot to be said for "phantom power". Our experts reveal the six ...

Because when it comes to fixtures, you can't take it with you when you sell your house. Of course, you can take almost anything you want with you ...

As a general rule, if your goal is to minimize the risk of electrical damage, flooding, and such, the only things you should leave plugged in or turned on when you're away are the things that ...

If you take something you haven't negotiated to keep, you could tank the sale--or even face a lawsuit. Not sure what you're allowed to take with you when you move?

By unplugging devices when not in use, you reduce the load on your electrical system and save money on electricity bills in the long run -- plus you reduce your carbon footprint.

One, perhaps unexpected, item to cause confusion is a property's national broadband network (nbn) connection box, Taylor says. "The nbn box is ...

Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.

It's safe to leave the cover off, with the following caveat. It's not safe to stick your hands or anything else in there while it's off, but the mere fact that it's off doesn't make it inherently unsafe.

Because when it comes to fixtures, you can't take it with you when you sell your house. Of course, you can take almost anything you want with you (and you can try to leave anything you ...

Take the electrical box with you when you leave the house

What should you do about the electric power in your home when you go away for vacation? This article talks about all the things you need to be careful about when you leave your home.
