

What is the wholesale price of a 4U immersion liquid-cooled power switch

The IW-RL400 is a 4U rackmount chassis designed for AI applications, including LLM and generative AI workloads. Pre-installed with an industrial-grade 360 mm AIO liquid cooler, it ensures optimal cooling ...

Discover immersion cooling systems with liquid cooling efficiency & CE certification. Ideal for data centers, mining rigs, and server racks.

In micro data centers and at the edge, compute demands are high and space is limited. LiquidStack's DataTank(TM) 2-phase immersion cooling systems can cool the hottest computers in the most extreme ...

The LiquidStack 4U unit is a high-performance two-phase immersion cooling system that delivers up to 6kW of thermal capacity in a 4U form factor--enabling unmatched compute density with industry ...

The Eaton Boyd Thermal 4U liquid-to-liquid Cooling Distribution Unit is a state-of-the-art cooling system that maximizes cooling capability in its given volume. The 4U CDU unit has a capacity of up to 110 ...

Supermicro liquid cooling solutions reduce power costs by up to 40%, accelerate time-to-deployment and time-to-online, and allow data centers to run more efficiently with lower PUE.

Imagine a data center where even the most powerful switches run cool and stable-- without noise, thermal throttling, or energy waste. Cisco is actively innovating in direct-to-chip liquid ...

Liquid to Liquid Coolant Distribution Unit The DCX HYDRO CDU1 is a great all-rounder solution for any data center cooling with its compact, 4U rack-mounted design.

Using the same approach as in mining, BiXBiT's immersion cooling technology enhances server performance, delivering optimal efficiency and to ensure stability even under the heavy workloads

What is the wholesale price of a 4U immersion liquid-cooled power switch
