

# Where can I buy a variable optical attenuator

The Arcoptix electrical adjustable variable attenuator is a worldwide unique liquid crystal device that permits to control precisely the attenuation of a free space traveling beam with a simple applied voltage.

? Top-level product category: optical components and devices optical attenuators fiber-optic attenuators neutral density filters variable optical attenuators Featured Suppliers of Optical Attenuators Click on a ...

Available for different laser wavelengths. We also offer variable attenuators for high power Nd:YAG laser or femtosecond Ti:Sapphire laser applications. It has multiple order or zero order optically contacted, ...

GAO Tek offers a selection of fiber optical attenuators and variable optical attenuators that are both handheld and rugged.

We offer the industry's most extensive selection of fiber variable optical attenuators (VOAs), addressing all application scenarios with best-in-class performance and value.

Thorlabs has a wide variety of single mode (SM), polarization-maintaining (PM), or multimode (MM) fixed and variable optical attenuators (VOAs). We offer SM and PM electronic VOAs that provide control of ...

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

Digital Variable Attenuators Fixed Attenuators Variable Attenuators Manual Variable Attenuators MEMS Variable Attenuators Motor Driven Variable Attenuators Bulkhead Receptacles/Sleeve Through ...

Polarization sensitivity (PDL):  $< 0.02$  dB p-p (low PDL design). Back-reflector mode and optional reference reflector kits support reflection-sensitive tests (requires Option 203/back-reflector ...

The JDSU VA4 is a variable optical attenuator designed for precision control of light levels in optical systems. This unit is being sold "AS IS" for parts or repair, and may not be fully functional. It could be ...
